

MUHAMMAD SUHEER KHAN

FLUTTER DEVELOPER

+92-332-2683443 @ khansuheer1@gmail.com https://www.linkedin.com/in/suheer-khan/ Karachi, Pakistan

SUMMARY

Flutter developer with experience in **REST API integration**, **Firebase**, and **Stacked state management**. I have built feature-rich applications, including **e-commerce**, **crypto hot wallet**, **multi vendor**, **chat**, **news**, and **weather apps**, focusing on clean UI, smooth functionality, and scalable architecture. Always eager to learn and improve.

EXPERIENCE

- Flutter Developer
Devop360
devop360.com

EDUCATION

- Bachelor's in Computer Science
Mohammad Ali Jinnah University
- Intermediate in Computer Science
Government For Men College Nazimabad
- Matriculation in Computer Science
Little Folk's Paradise School

PROJECTS

Crypto Hot Wallet App

https://github.com/suheerthedev/forti_coin_app

Developed a crypto hot wallet app that displays real-time coin prices and user portfolio earnings by integrating Binance WebSocket APIs with Flutter's StreamBuilder. Implemented TRC20 network data fetching to track token balances and provide live updates for purchased assets, and much more.

Ecommerce App

https://github.com/suheerthedev/ecom_app

Developed a **fully functional e-commerce app** with **Firebase authentication** (Email, Google, Facebook), password reset, filtering, sorting, search, cart, notifications, wishlist, order tracking, and payment gateway integration.

Multi-Vendor Marketplace

https://github.com/suheerthedev/marketplace

Built a Multi-Vendor Marketplace app integrated with a Laravel backend using REST APIs.

SKILLS

API Integration	FireBase	Cloud FireStore	Stacked State Management	Responsive UI Design	Flutter	Dart
HTML	CSS	Javascript	C++			

COURSES

Flutter App Development from SMIT
